- Study mode: online
- Study load: 10-13 hours per week
- Prerequisites: No
- Campus facilities open for access: No

COURSE SUMMARY

User experience/ user interface

UX Design in Healthcare

Description

Through this course you will accelerate your career with knowledge of Australian healthcare systems and skills in human centred design. Imagine and design alternative futures for the industry and create a prototype for the healthcare of tomorrow.

The Australian healthcare industry is undergoing a major digital transformation, with new technologies and shifting patient expectations changing the way that patients interact with healthcare services.

As a result, the sector could greatly benefit from the application of human-centred design to support efficient and effective services with patients' needs at the core.
