

AI/machine learning

Certified Artificial Intelligence Professional

Description

The Certified Artificial Intelligence Professional course will provide you with an in-depth foundation in AI and machine learning concepts, key skills required and application using AWS and TensorFlow.

The course also includes fundamentals of cloud computing, data analytics solutions and practical machine learning skills using the most popular framework being used by wide variety of enterprises.

You will learn Python, MySQL, JavaScript, Deep Learning, extra-curricular content on PyTorch and AI/ML workloads implemented on AWS and TensorFlow.

JOB OUTCOMES

- AI and ML trainee
- Data Analyst
- Software Developer
- Business Analyst
- AI Researcher

DETAILS

- Commencement date: **12 July 2021**
- Study mode: online
- Study load: 15-20 hours per week
- Prerequisites: No
- Campus facilities open for access: No
