Building Victoria's digital workforce

## Web Development

Course	Description	Details	Job Outcomes
<b>React Development</b> GENERAL ASSEMBLY	Facebook created React to build a robust, dynamic platform that could adapt to continually changing data. To date, this JavaScript library fuels countless websites and applications across industries. Participants learn to leverage React's power in this hands-on, project-based course. Build your own web application and compile a professional project portfolio to showcase new skills. According to Stack Overflow, the React JavaScript library is the one "most developers want to work with if they don't already."	<b>Study mode:</b> Mixed live and pre-recorded  <b>Study load:</b> 88 hours  <b>Entry Level:</b> Advanced	- Junior Web Developer - Web Developer - Web Designer
<b>JavaScript Development</b> GENERAL ASSEMBLY	Gain fluency in JavaScript — the world's most popular programming language — and start leveraging its versatile capabilities to build rich, interactive websites and applications. This course teaches you intermediate front-end development skills using JavaScript, jQuery, Git and GitHub, and the command line.	<b>Study mode:</b> Mixed live and pre-recorded  <b>Study load:</b> 108 Hours  <b>Entry Level:</b> Advanced	- Junior Web Developer - Junior Front-End Web Developer - Software Developer
<b>Front-end Web Development</b> GENERAL ASSEMBLY	Start building responsive websites with HTML, CSS, and JavaScript - a versatile skill set with powerful applications in a variety of design, marketing, and other tech-adjacent roles. This course equips complete beginners with the cutting-edge tools they need to build rich, interactive websites. Dive into essential programming languages, then round out your skill set with industry-relevant topics like responsive design, APIs, and version control. You'll apply what you've learned to build a custom website from scratch.	<b>Study mode:</b> Mixed live and pre-recorded  <b>Study load:</b> 108 Hours  <b>Entry Level:</b> Foundational	- Junior Web Developer - Junior Front-End Web Developer - Web Designer
<b>Web Development</b> ACADEMY XI	In this course, you'll learn HTML, CSS and JavaScript and build a fully functioning, interactive website. Demand for Web Development skills is increasing, with a 25% projected growth in roles by 2025 in Australia. Guided by an industry-expert instructor, spend over 50% of your time coding, working on coding exercises and two individual projects. Graduate with an active Github profile to showcase your practical skills to potential employers, and a Digital Credential which you can add on LinkedIn. Boost your career prospects as a developer and in tech-adjacent fields like Marketing, Design, Product Management, with versatile, in-demand development skills.	<b>Study mode:</b> All live classes  <b>Study load:</b> 120-150 Hours  <b>Entry Level:</b> Intermediate	- Junior Web Developer - Front End Web Developer - Web Designer
